Full Lyrics:

Running Back to You

[verse 1]

Remember me

My baby

Do I cross your mind

I should let it be

Im struggling

struggling to get by

[pre chorus]

Remember how it feels

Time can only heal

Tell me how you feel

Time to keep it real

[hook]

Dont forget me

Dont you let me go

Cause ive been patiently running back

Running right back to you

Lifes been empty

Everywhere I go

So dont forget me

Cause ill be running right back to you

running right back to you

running right back to you

running right back to you

running right back to you

running right back to you

running right back to you

running right back to you

running right back to you

[verse2]

Just give it time

Forever may have been made for you and I

See it for yourself we're both living blind

And you know im right

You know im right baby

Remember how it feels
Time can only heal
Tell me how you feel
Time to keep it real

Heey yeaah

Dont forget me
Dont you let me go
Cause ive been patiently running back
Running right back to you
Lifes been empty
Everywhere I go
So dont forget me

Cause ill be running right back to you
running right back to you
running right back to you
running right back to you
running right back to you
running right back to you
running right back to you

Im running right back to you

Heey yeaah

Dont forget me
Dont you let me go
Cause ive been patiently running back
Running right back to you
Lifes been empty
Everywhere I go
So dont forget me
Cause ill be running right back
Running right back to you
